Introduction

This is a press release for newly started business in your town. Very Delicious Kitchen is now in the town and ready to serve people of Saskatoon with fresh and healthy food delivered on your door with our partners Skip the Dishes, Door Dash and Uber Eats .

We at Very Delicious Kitchen are ready to serve you in the city. Our company specialises on providing home-cooked meals to busy professionals who don't have the time to prepare meals at home. By providing these meals, we hope to prevent working people from choosing unhealthy fast food instead. Due to the fact that we prepare the food at home and transport it to our customers, we often can only deliver the meal in a timely manner and do not currently provide a dine-in alternative.

Story

We have always loved food in our house! It has been our love language and activity of choice for years. During the COVID-19 lockdown, we found ourselves cooking more than ever before. We dreamed of turning our love of cooking into something we could do every day, and not just in spare time. So we decided... we would make our kitchen! We reached out to friends and family, who supported us, and helped us raise the

needed to funds to get started. Our focus is on making food we love, food we adore, food we grew up with, and feeding it to those that don't have the time to make it themselves. We hope you enjoy our food, and feel the love we put into it.
